

COVID-19 Vaccine Dose Tracker

Moderna Bivalent Booster 6+ (B), 0.5 mL dose

Remember!

- After puncture, vials should be stored between 2°C - 25°C (36°F - 77°F) for up to 12 hours. **Discard any remaining vaccine after 12 hours.**
- A booster dose for individuals 12 years of age and older is 0.5ml, for a total of five doses per vial.
- A booster dose for individuals 6 years through 11 years of age is 0.25ml, for a total of ten doses per vial.

Tracking Doses Given

- Circle any doses provided to patients in the **# Doses Given** section (based on the corresponding age range/dose volume) and write the patients' initials and time given underneath.
- Mark off any wasted doses in the **# Doses Given** section with an "X" and report this wastage to the Immunization Program.
- Waste is considered anything less than five doses per vial for bivalent boosters.
- Click here to access our [Vaccine Wastage Guide](#).
